

# Are you a healthcare charity that offers physical or mental wellbeing support to Australian communities?

**The Altro Foundation** aims to improve the quality of life for vulnerable communities around the world with innovative mobile clinic spaces that improve their experience of healthcare.

We have worked with projects overseas to create a tailor-made clinic on wheels that can take healthcare directly to the heart of the communities that need it.

We are acutely aware of the growing numbers of people affected by wellbeing issues, either directly or through supporting a loved one. We are inviting Australian charities operating in either a physical or mental healthcare context to apply for grant funding. A £50k grant will be awarded, enabling the chosen charity to work with us to create a tailor-made mobile clinic.

**To request further information and an application form, please email [info@altrofoundation.com](mailto:info@altrofoundation.com).**

**The deadline for completed application forms is 17 May 2024.**

We look forward to hearing from you!
